NOT TO BE TRIED AGAIN THIS TERM

Fred Dunn Will Have to Wait Until February Term For Another Hearing in Murder Case

ANNOUNCEMENT BY THE COURT

Jury Disagrees Saturday Night, 8 Standing For Life Imprisonment and 4 Believing Him Insane

Fred Dunn, who was on trial all last week, charged with first degree murder, in connection with the slaying of his wife, Cordelia Dunn on September 18, will be compelled to go on trial again, as the jury was unable to reach an agreement concerning what was to be done with the defendant.

Because the defense based their case on insanity and attempted to prove that Dunn was of unsound mind, and not responsible for his actions, the jury was undecided as to sending him for life imprisonment or for confining him in the insane hospital in connection with the prison.

It was understood that when the jury came in at 10 o'clock Saturday night, they stood eight for life imprisonment and four for his insanity.

At three o'clock Saturday afternoon it was indicated that the jury would disagree, and word was then sent to Judge Sparks to that effect. It was then stated that the jury was 7 to 5, but it was not known then which side was in the majority.

The jury was then told that they had plenty of time to deliberate, but at ten o'clock they were called into the court room and discharged by Judge Sparks.

Judge Sparks stated this morning that Dunn would not be tried again in this term of court. While it is not illegal to try the same case twice in the same term of court, yet in this instance the case will not be tried until the February term.

Sheriff Jones stated that Dunn only spoke once about the decision of the jury. When placed in jail following the disagreement, he asked the sheriff what it meant. The sheriff told him and Dunn's reply was that it would mean that his family would come here again to see him, when the next trial came up.

Dunn, according to Sheriff Jones, did not speak all day Sunday or today about the case, and still presents that expressionless look on his face. One of the jurymen re-Continued on Page Three

MACHINE CRASHES INTO FLAT BED WAGON

Will Hardin is Thrown Down Between Horses and Sustains An Injured Arm

STIERS MACHINE DAMAGED

An accident that might have resulted very seriously happened Saturday evening shortly after five o'clock, in front of the new residence of J. D. Case in North Main street, when an automobile driven by Miss Fanny Stiers ran into a flat bed wagon and team of horses driven by Will Hardin. Lights from a machine coming up Main street blinded Miss Stiers and she failed to see the team, and ran into it. Mr. Hardin was thrown down between the two horses and received an injured arm, which was thought to have been stepped on by a horse, and his face was scratched.

The bed of the wagon was completely knocked off and the lights of the automobile were broken. The two horses barely escaped serious injury, and had they been struck by the machine, the accident would have been much more serious. Mr. Case and Mr. Hardin had just finished unloading a heavy load of sod and were preparing to leave. Mr. Case was standing at the side of the wagon, when the crash came.

ELLIS MURDER TRIAL OPENS

Case of Knightstown Man Begins in Henry Circuit Court

The trial of Frank Ellis of Knightstown, charged with manslaughter for the killing of William Hart, opened in the Henry circuit court at Newcastle today with Judge Fred Gause on the bench.

It was expected some time would be required to get a jury. Ellis gave himself up to the sheriff after Hart had died from a blow over the head, early last fall. Ellis was indicted by the grand jury and has been at liberty on \$2,000 bond. John A. Tittsworth of this city is defending Ellis.

ALLEGED TRAFFIC IN LIQUOR TO BE PROBED

Charley Clevenger and Ross Jones, Accused of Larceny, in Court Today But No Sentence Passed

COURT TALKS TO DETECTIVE

Charley Clevenger and Ross Jones who pleaded guilty a few weeks ago to larceny charges in the circuit court, were arraigned this morning before Judge Sparks, presumably to have sentence passed, but instead the court expressed his desire to investigate further the alleged liquor traffic, which one of the three boys arrested had divulged in a statement to a detective of the Railways Express company.

It will be recalled that Clevenger, Jones and Lawrence Manuel, were arrested after the detectives had found that express shipments had been entered. The trio were formerly employees of the company. With the exception of Jones, the other two have been at liberty on bond since pleading guilty.

This morning Judge Sparks made it plain to the detective of the express company that it was none of their business when the trio would be sentenced, and that the liquor violations had to be investigated by the court. He intimated that the express company was liable for shipments of liquor that were said to have been received here.

BIG FOUR TRACKS ARE BEING CHANGED

Will Connect With L. E. & W. at Tenth Street and Curve Will be Eliminated

FORCE OF MEN WORKS SUNDAY

The Big Four railroad has started work on the changing of their tracks just as they enter Rushville, and a large force of men was busy all day yesterday in regrading the tracks for a distance of a half mile, just as the track turns in Rushville at the Park furniture factory.

Steam shovels were used to make a new grade and the tracks will be changed in order to eliminate the curve at the entrance into Rushville. The curve would be on the Eleventh street crossing, which will be paved in the near future, and the railroad decided to take out the curve, and come into Rushville diagonally.

The tracks will be pushed a few feet westward, which will take out the curve, and at Tenth street will run into the L. E. & W. tracks. At present time the tracks curve at Eleventh street and run south to Fifth street, where they join the L. E. & W. railroad. The big change will be in connecting with the L. E. & W. railroad at Tenth street. The old tracks of the Big Four will be partially taken up but will be used for switching purposes and for reaching the several factories that are now served in that portion of the city.

Impossible to Tell Number Killed in Dublin During Sinn Fein and British Rioting

ROUND-UP OF LEADERS TODAY

House of Commons Suspends Session After Uproar During Discussion of Dublin Murder

(By United Press)
Dublin, Ireland, Nov. 22.—Bodies of several additional victims of the fighting between Sinn Feiners and British forces were found in the streets of Dublin today.

The confusion throughout the city was so great it was impossible to tell how or when they had been killed. The biggest round-up of Sinn Feiners in the history of the rebellion was in full swing.

Scores of leaders here and in Queenstown were arrested. Detachments of troops were circling buildings in Dublin and Queenstown. The Lord Mayor of Dublin appealed for police protection. A squadron of black and tan police were sent to guard him.

Panic reigned in Dublin. Railway service was suspended and the railroad yards were quiet. In many parts of Dublin where noise occurred, no sound was to be heard today except that made by the army patrols.

In many parts of the city pedestrians were held up and searched. In many cases after such searching the pedestrians would be surrounded by soldiers and hurried away.

London, Nov. 22.—The house of commons suspended its session today a result of situation growing out of the discussion of the Dublin murders.

J. Duzlin, Irish leader, held the center of the floor when he was forced to take his seat. All members of the house joined in the scuffle.

The premier had been asked by another member of the house if he was willing to shoot every member of the Sinn Fein gang who should be caught.

Lloyd George replied he would not hesitate to suggest additional power if he thought it necessary. During the discussion Duzlin made an attempt to get to his feet but was forced to remain quiet. He finally took the floor and asked the premier why he had not mentioned the massacre on the football field.

Sir H. Greenwood, chief secretary for Ireland, answered for the premier, stating that no question had been asked regarding the Croke park affair. Duzlin again took the floor. During the scuffle which followed the sitting was suspended.

REVIVAL AT FAIRVIEW

The Rev. F. T. Taylor, pastor of the Fairview M. E. church, will conduct a series of meetings at the church beginning tomorrow evening. Services will begin promptly each evening at seven o'clock.

WEATHER FOR THE WEEK

Washington, Nov. 22.—Generally fair weather is indicated for the Ohio valley with normal temperatures until Wednesday or Thursday, when there will likely be rains, followed by fair and considerably colder.

BRIDGE PAINTER KILLED

Anderson, Nov. 22.—Harry Maywood, 30, bridge painter, was almost instantly killed when he was knocked from a 25 foot bridge near Atlanta by a traction car. A widow and three children survive.

REPORTS ARE NOT VERY ENCOURAGING

Few Townships Have Never Been Touched in The Fourth Annual Red Cross Roll Call

WORKERS NOT RESPONSIVE

Believed Rush County Should Make Good Showing When She Had Banner Per Capita Membership

Not very encouraging reports were being received today at county headquarters here regarding the fourth annual roll call. Rushville churches at which envelopes were distributed a week ago Sunday, were expected to report this morning, but only one had sent any word to headquarters. One Rushville church, however, reported forty-five enrollments last Monday, not waiting until the second Sunday to take up the envelopes which were distributed.

A few townships in the county have never been touched by the campaign. The county managers have found it impossible to find any responsive person who will take up the work and endeavor to enroll the old members.

In the third annual Roll Call last year, Rush county boasted a membership of 3,300, and the year before the enrollment totaled 9,000. In the fall of 1918 Rush county had the largest per capita membership in the Red Cross of any county in Indiana. Red Cross workers feel that it would be little short of disgraceful for Rush county not to make a good showing this year in the light of its record.

The Red Cross of America, recognized as it is by the United States congress as the agency for its work of ministering to suffering humanity in both war and peace days, brings to the people of Rushville and of Rush county a strong and urgent appeal for support in its great task of reconstruction days. This appeal has not yet been answered with any degree of the readiness that is always characteristic of Rush county people when a call is made upon them to give their support to a good cause.

The appeal of the Red Cross now is not for large sums of money, but for men, women and children who will become members of the organization. The year's membership costs but a dollar, yet it is surprising and a fact not to be boasted of, that after the first week of the fourth Red Cross roll call that the county's goal is not in sight. Other counties of the state have furnished their quotas in drive lasting but two or three days, while present prospects in Rush county point to the failure of the drive.

Rushville people and the good folks of the county will not fail, however, in giving their response to the fourth annual roll call, if Red Cross workers and those who are boosting the membership campaign are right in their belief and confidence in Rush county people. Those who have already joined the Red Cross are asked to display their window cards and to wear their buttons in order that it may be known who have already responded to the call of the organization.

Those who have the interest and work of the Red Cross at heart point out that Rush county cannot fail to support such an organization as the Red Cross. The Red Cross is needed in the county and if the people of the county fail to respond in the drive, it would then be necessary to ask for funds if the work is to continue here. The membership way is the best and before the end of the roll call next Thursday a wonderful effort will be put forward to bring up Rush county's share of Red Cross members.

FINDS CLOTH BURNING

The fire department answered a call this morning about 11:30 o'clock to 910 North Perkins street. The department failed to find any fire except a burning piece of cloth, which was at 906 North Perkins street, a double house owned by Mrs. Grubbs. The message was telephoned to the department.

MARRIAGE LICENSE SLUMP

Only Four Issued so Far During Month of November

There has been an unusual slump in the marriage license business this month. The slump is so much more noticeable because November in past years has kept pace with June, and last year during the month there were 23 licenses issued, while so far this month only four couples have taken out licenses. Three of these were issued on the sixth, and then two weeks lapsed until Saturday when the fourth license of the month was issued.

Thanksgiving will more than likely boast two or three, as the records always show more licenses on holidays and Saturday than any other time.

CONCERT IS CHANGED DUE TO CONFLICT HERE

June Elliott Company Will Not Come Until December 6—Scheduled For Friday Night

JAP LECTURE POSTPONED

The June Elliott Concert company, which was scheduled to appear here Friday night as the second number of the American Legion winter lyceum course, has been postponed until December 6 on account of a conflict with a basketball game. Connersville high school plays Rushville here on that date and it was believed a basketball game in the gymnasium and a concert on the next floor above, would not be very harmonious. Furthermore, many persons would like to attend both the game and the concert. When the conflict was discovered, a wire was sent to the lyceum bureau at once at Chicago and the new date was granted.

Word has also been received by the committee of Rush post of the Legion, which is managing the winter course, that Dr. Minakuchi, Japanese lecturer who was billed for Rushville December 8, will be unable to come at that time. The committee was very willing to allow postponement of the lecture until January or February because the change in the June Elliott date would have thrown two numbers within one night of each other.

BIG CROWD EXPECTED AT HIGH SCHOOL NIGHT

Advanced Seat Sale for "Stunts" to be Given Tuesday Evening Indicates Good Attendance

COMPOSED OF THREE PARTS

The advanced seat sale for High School Stunts, which will be given for the benefit of the Rushville high school boosters club Tuesday evening at eight o'clock at the Graham Annex auditorium, indicates that the attendance will be large because most of the tickets have already been sold.

The first scene is laid in the office of Vinegar's vaudeville agency, which is conducted by Valentine and Viola Vinegar, with the able assistance of a janitor and elevator man. The action in the scene deals with the visits of the various organizations which are trying to "get on" the vaudeville stage. Naturally they all have to demonstrate their acts for the agency.

The second part is titled "The Fairy and The Witch" and the scene is laid in fairyland. The third part will be by the high school band. The boosters club is starting a fund to buy instruments for the band.

NOTICE TO RED MEN

The annual Thanksgiving rabbit supper of Tanpah Tribe No. 102 will be held in the Wigwam on Tuesday night following the regular meeting of the Tribe. All members and visiting Red Men are invited to attend.

DR. EARLY GAINS FAME IN THE WEST

Former Rushville Man And Partner in Industrial Surgery, Purchase Los Angeles Hospital

DESCRIPTION OF THEIR WORK

Operate a Dozen Emergency Hospitals Near the City—Dr. Early Bought Equipment While East

Dr. J. Rollin French and Dr. E. C. Early, the latter being a former Rushville man, have lately purchased the Crocker street hospital in Los Angeles, Calif., where they are engaged as industrial surgeons, at a cost of \$10,000, according to word received here, and will expend \$20,000 in remodeling it.

When Dr. and Mrs. Early were here for a visit with relatives a few weeks ago, they were on their way east where Dr. Early went to purchase modern equipment for the new hospital, the name of which will be changed to the American hospital.

The two surgeons maintain an industrial accident-surgical service, representing about 1500 corporations, or approximately 60 percent of the industrial concerns of Los Angeles and vicinity, according to an article in a Los Angeles newspaper received here, giving a long description of the work of the two physicians.

Dr. Early is the son of Mr. and Mrs. Frank Early of this city and Mrs. Early is the daughter of Mrs. Anna B. Cox also of Rushville.

The following from a Los Angeles newspaper, which is only a part of the article as it originally appeared, shows what a large measure of success the former Rushville man has attained:

"In addition to the American hospital and offices in the Consolidated Realty building, they have about a dozen emergency hospitals in this district. Completely equipped emergency hospitals have been established at Wilmington, San Pedro, ermon, Hollywood, Benton and Orcutt. The physicians also have affiliations with doctors in neighboring towns and many ambulance companies.

Los Angeles leads all cities in treatment of industrially injured persons, according to Dr. French.

"While Los Angeles is now the tenth city in the United States in the development of its industries, it is safe to say it is first in caring for injured employees" Dr. French stated.

Approximately one-third of the Los Angeles population it is estimated, is engaged in occupations of various sorts. About 500 of these find it necessary each day to obtain treatment for injuries arising out of

STOPS EVIDENCE IN MILLER DIVORCE CASE

Judge Gause of Newcastle Said he Heard Enough and Offered to Grant Defendant Decree

MUST FILE CROSS COMPLAINT

A divorce case was heard Saturday in the Henry circuit court at Newcastle, involving Rush county people, when the case of Virgil Miller against Edna Miller was heard before Judge Gause. The case was very sensational, and when the defense had introduced only a portion of their evidence, the testimony was stopped by the court, as he said he had heard enough.

No decree was issued, but Judge Gause stated that if the defendant would file a cross complaint, she would be granted a divorce. The attorneys did not file a cross complaint. Mrs. Miller was formerly Edna Hardin, daughter of J. B. Hardin, of near Arlington. The plaintiff was represented by Donald Smith and J. D. Megee of this city, and the defense by T. M. Green and John A. Tittsworth, all of this city.

Forecasting the Weather.
A homely method of foretelling the weather is to drop carefully a lump of sugar into a cup of coffee. If the bubbles it causes suddenly rush from the center to the side of the cup, it is going to rain very hard. If the air bubbles assemble in the center and then pass to the side of the cup in a deliberate way, you must still be prepared for what the weather forecast would call "some showers." But if the bubbles refuse to stir from the center of the cup, you may go forth to your labors assured of a fine day.

System Counts.

The difference between a confused household, where things are never entirely in order, and one where the work moves along systematically and tasks seem easily done, is the difference between planning and not planning. It is not the easiest thing in the world to make a schedule for housework—and stick to it! But when one sees the results which are possible through settling aside a definite time for definite things, one sees that it is surely worth trying.

HOG PRICES STRIKE LOW MARK SINCE 1913

Heavy Declines Continue Today, the Average Sales Dropping to \$10.50 in Chicago.

GRAIN IS ALSO AFFECTED

Chicago, Ill., Nov. 22—Grain and hog prices made new low records today in the continuation of the decline on markets throughout the country.

In all grain markets a new low was made since the outbreak of the war, according to records from the middle west.

Hog prices also dropped to the lowest mark since 1913. On the Chicago market hogs dropped 50 cents with the average sales at \$10.5. At other hog markets similar declines were recorded.

The cause of the lower prices were given as overstocked markets and the tight money conditions.

Corn lost from 1 to 2 cents, the December corn falling to 64 cents.

marked this morning that immediately after it was announced that they had disagreed, Dunn changed his expression, in his opinion, and looked brighter.

Two things have been brought out since the jury disagreed. One is that the defendant may apply for a change of venue from the county, and the other that the defendant's attorneys might petition the court for an insanity commission, and if found insane, commit him at once to a hospital, rather than let the man lie in jail for several months longer, while awaiting a new trial.

Murders are very expensive to Rush county. The case that took five days last week will probably cost the county in the neighborhood of \$300, and in case of another trial will even prove more, as a jury will be harder to secure than it was this time.

and in the course of their employment.

"To meet the needs of this immense number of patients, we maintain a complete hospital service exclusively for industrially injured," the surgeon remarked.

"Every detail has been given thoughtful consideration, not only for the comfort of the patient, but with the idea of complete rehabilitation, thus enabling the injured to gain compete with his fellow workmen in earning an honest living for himself and family, instead of asking alms on the public street or expecting charity as has been the case in many instances heretofore. This service is open 24 hours a day, thus being prepared to render aid to the injured employee whenever such aid is necessary. At the headquarters medical men are in constant attendance and others are within call."

The Los Angeles physicians recently made a three-months trip through 41 of the states to survey the progress made along this line. Nowhere, he reports, did he find a service approaching that being rendered industry in Los Angeles. Intense interest in the work was displayed by officials of eastern states, and the superintendent of vocational training of Massachusetts recommended to high state officials that a similar service be opened there.

The superintendent stated in his letter of recommendation to high state officials that a similar service be opened there.

The superintendent stated in his letter of recommendation that the service offered here was complete and ideal.

As evidence of the far-reaching recognition of the work of local industrial surgical men, it was stated that a request was received by Dr. French that exhibits—photographs and specimens of articles made by

men and women patients of the occupational therapy department—be sent to Philadelphia for the national convention in October.

The institution is organized upon the basis of ultra-modern business methods and the restoration of injured persons is carefully and skillfully planned", explained Dr. French. As a consequence results are attained as surely as the output of any producing, manufacturing or business concern.

This may appeal as a peculiar comparison, but thousands of industry's casualties who have been treated have provided an experience which has reduced their restoration to a scientific reality. The old theory of anticipated results has been replaced by actual accomplishment, as tabulated statistics will reveal.

"The California compensation law is responsible for the stimulation of evolving the better service. Endeav-

ors of physicians interested in caring for industrially injured were quickened when the measure went into effect in 1913. Since that time I and Dr. Early have devoted our time exclusively to this phase of medical work.

"Departmentization of service has added much to its efficiency, each department being held directly responsible for the results. Hence the department heads are called upon to maintain the most complete and latest scientific equipment.

"Departments found necessary run as high as 18. They are: Ambulance, first aid, 24-hour service; reporting, first, subsequent and final; subsequent dressings; eye, ear, nose and throat; x-ray and diagnosis; operative surgery; out-patient; massage, hydro, electro and mechanical therapeutics; compensation detail; occupational therapy; social service and re-education; base

hospital, investigations; employment examinations; commission representation; special examinations, neurological, and stock and equipment.

In the past Drs. French and Early have maintained several wards in various private hospitals here for the care of injured employees. It is expected that they will concentrate their efforts in the future at the American hospital. The Crocker street hospital has 100 beds.

"Service will be the watchword of the institution," said Dr. French. "Los Angeles has the best industrial accident surgical service in the world and we are going to improve our lead by the establishment of this great base or center.

"It will be run for the express purpose of giving service, financial returns being a secondary consideration. It is to be 100 percent American, 100 percent hospital and 100 percent efficiency".

Where The Birds Migrate

A few nights ago a flock of wild geese flew over Rushville. If the unsophisticated should ask where they were going, the casual reply would be "South". Just south, that's all, in spite of the fact that there are a half score of states where they might find refuge.

It was not long ago that the migratory birds did just "go south". But now it is different because E. A. McHenry had a big idea. He lives

Neglect Keeps Doctors Busy

An eminent physician once said: "Were it not for people who neglect the early symptoms of disease, many doctors would have to find a new way to make a living."

Every winter doctors are busy calling on grippe and pneumonia patients because the first symptoms of colds were neglected.

Watch out for a cold this year. At the first sneeze and sniffle take Lightning Laxative Quinine Tablets. You'll stop the cold and feel like a new person in 24 hours. Never gripe or sicken. Druggists guarantee them.—25c a box.

at Vermillion Parish, Louisiana. A few years ago this "notion" crept into his head. He wondered why wild life of the air, which seeks the warmer climes every fall, should not have a safe refuge. That was the beginning of what is now regarded as the most extensive effort in the direction of game preservation ever attempted. It was culminated a few days ago with the signing of deeds and other documents in Louisiana's capital at Baton Rouge.

Louisiana now possesses 500 square miles, with a frontage of 75 miles on the Gulf, and has contracted forever to maintain this great area as a safeguard refuge for all the wild creatures of the woods, the marshes and the air. The special design is to protect the birds, particularly the migratory species and those with commercially valuable plumage. A large part of the land included in the reservation is unfit for agricultural purposes, but the deeds wisely provide that in case of the discovery of oil or minerals such treasure may be harvested, but with the least possible disturbance of the wild life, and that all revenue thus derived by the State will be devoted to further game conservation or to public education.

The originator of this great movement set aside 60,000 acres of his own marsh land as a bird asylum. The project was then taken up enthusiastically by M. L. Alexander, head commissioner of the State department of conservation, who campaigned for the preservation of the birds and beasts of the Gulf coast. Outside attention was attracted and both the Russell Sage and the Rockefeller Foundations became interested, the former contributing an island of 78,000 acres and the latter a tract of 85,000 acres on the mainland. Thus the project grew until it was possible to set apart forever the huge domain of 500 square miles. The friends of conservation in other states should find inspiration in Louisiana's example.

Foreign diplomats accredited to this country are warmly welcomed and soon find themselves possessed of hordes of friends. It has been officially ruled that booze shipped

to them from abroad is not subject to seizure.

Just why they call them "soap box orators" we don't know. Most of them seldom use it.

The disappointed candidate who failed to get under the wire should not worry. He has escaped a pile of future abuse.

Andrew Carnegie tried desperately hard to give away his great wealth and die a poor man, and he almost succeeded. His estate has been recently appraised and is valued at the insignificant sum of \$23,000,000.

A squib writer, probably speaking from experience, remarks that some people marry for love and remain married for spite. And some, we might add, hitch up for money and unhitch as soon as they get it.

EIGHT YEARS OF TROUBLE ENDED

Terre Haute Woman Says Tanlac Has Made All The Difference in The World in The Way She Feels

"I am now enjoying good health for the first time in eight years and I owe my recovery entirely to Tanlac," said Mrs. Maria Zoellin, of 471 N. Second St., Terre Haute, Ind.

"During all those eight years I had trouble with my stomach and kidneys and was in a rundown condition generally. My appetite was almost completely gone and I could hardly eat a thing but what gave me trouble.

"I never knew what it was to enjoy a good hearty meal, and vegetables especially I dared not touch. I was subject to terrible coughing spells that often kept me awake nearly all night, and I felt so weak and tired out all the time it was hard for me to get through my housework.

"But Tanlac has made all the difference in the world in my feelings. I never had such an appetite in my life as I have now, everything seems to agree with me perfectly, for I never suffer after eating and have gained several pounds in weight. The other day I ate some green beans, something I hadn't dared do for six years, and never felt a particle of trouble from it:

"I never have a cough now, sleep fine at night and am feeling so much stronger and better that my housework is like play, in fact I couldn't ask to feel any better than I do. I have told all my neighbors and friends about the way Tanlac has relieved my troubles, and I am only too happy to make this statement."

Tanlac is sold in Rushville by F. B. Johnson Co., in Milroy by Dallas Copper, in Manilla by Geo. J. Inlow, in Arlington by Mrs. L. T. Davis, in Carthage by Otto C. McGarty, and in New Salem by Mrs. Jos. Hankins, R. R. 2—Adv.

QUARREL OVER GAME LEADS TO A MURDER

Ralph G. Smethers, 21. Goes on Trial at Anderson For Fatally Stabbing Fred Jackson

SAYS JACKSON TAUNTED HIM

(By United Press)

Anderson, Nov. 22.—Ralph G. Smethers, 21, was to go on trial here today on a grand jury indictment charging manslaughter.

Smethers is charged with fatally stabbing Fred Jackson, 20, on the night of Oct. 23 following a quarrel over a basketball game. Smethers at the time of the stabbing declared that Jackson had taunted him and struck him and that they were down in the street struggling when he drew his knife and jabbed Jackson twice in one thigh. An artery was severed and Jackson died an hour later.

The youth's father W. E. Smethers, formerly a township trustee, provided \$5,000 bonds for his son after the latter had been indicted by the Madison county grand jury. The indictment was in two counts, one charging voluntary manslaughter and the other charging involuntary manslaughter.

Jackson had been married twice. His second wife was the daughter of Mr. and Mrs. John Henry of Pendleton. Jackson left an estate valued at \$5,000.

BETTER THAN CALOMEL

Thousands Have Discovered Dr. Edwards' Olive Tablets Are a Harmless Substitute

Dr. Edwards' Olive Tablets are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. For 17 years he used these tablets (a vegetable compound mixed with olive oil) in his private practice with great success.

They do all the good that calomel does but have no bad after effects. No pains, no griping, no injury to the gums or danger from acid foods—yet they stimulate the liver and bowels. Take Dr. Edwards' Olive Tablets when you feel "loggy" and "heavy." Note how they clear clouded brain and perk up the spirits.

MOTHERS, DO THIS—

When the Children Cough, Rub Musterole on Throats and Chests

No telling how soon the symptoms may develop into croup, or worse. And then's when you're glad you have a jar of Musterole at hand to give prompt, sure relief. It does not blister. As first aid and a certain remedy, Musterole is excellent. Thousands of mothers know it. You should keep a jar in the house, ready for instant use. It is the remedy for adults, too. Relieves sore throat, bronchitis, tonsillitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of back or joints, sprains, sore muscles, chilblains, frost-bitten feet and colds of the chest (it often prevents pneumonia).

IN YE OLDEN TIME

Hoop skirts were worn by those who first asked the druggist for, and insisted on having, the genuine Golden Medical Discovery put up by Dr. Pierce over fifty years ago. Dress has changed very much since then! But Dr. Pierce's medicines contain the same dependable ingredients. They are standard today just as they were fifty years ago.

Dr. Pierce's Golden Medical Discovery for the stomach and blood cannot be surpassed by any remedy today.

Dr. Pierce's Favorite Prescription for weak women has never been equalled for the distressing complaints incident to womanhood. What others say:

GOSHEN, IND.—"It is now about fifteen years since I had a wonderful demonstration with Doctor Pierce's Golden Medical Discovery. At that time I was down and out. I had coughed night and day for a whole year, and lost so much flesh I began to look like a walking skeleton. The 'Discovery' made me feel new strength and vitality right from the start, and in a year's time I was just as strong and hardy as ever, and have never suffered with such a cough since."—Mrs. ELIZA TEETER, 415 Middlebury Street. Badly Fitted Glasses are Useless

Even though the lenses may be exactly made for your defect of vision, the effect is spoiled if the frames are badly fitted.

A badly fitted bridge causes the lenses to be away from their correct position, with the result that vision is distorted. Also glasses of wrong width between the center of the lenses causes distorted vision.

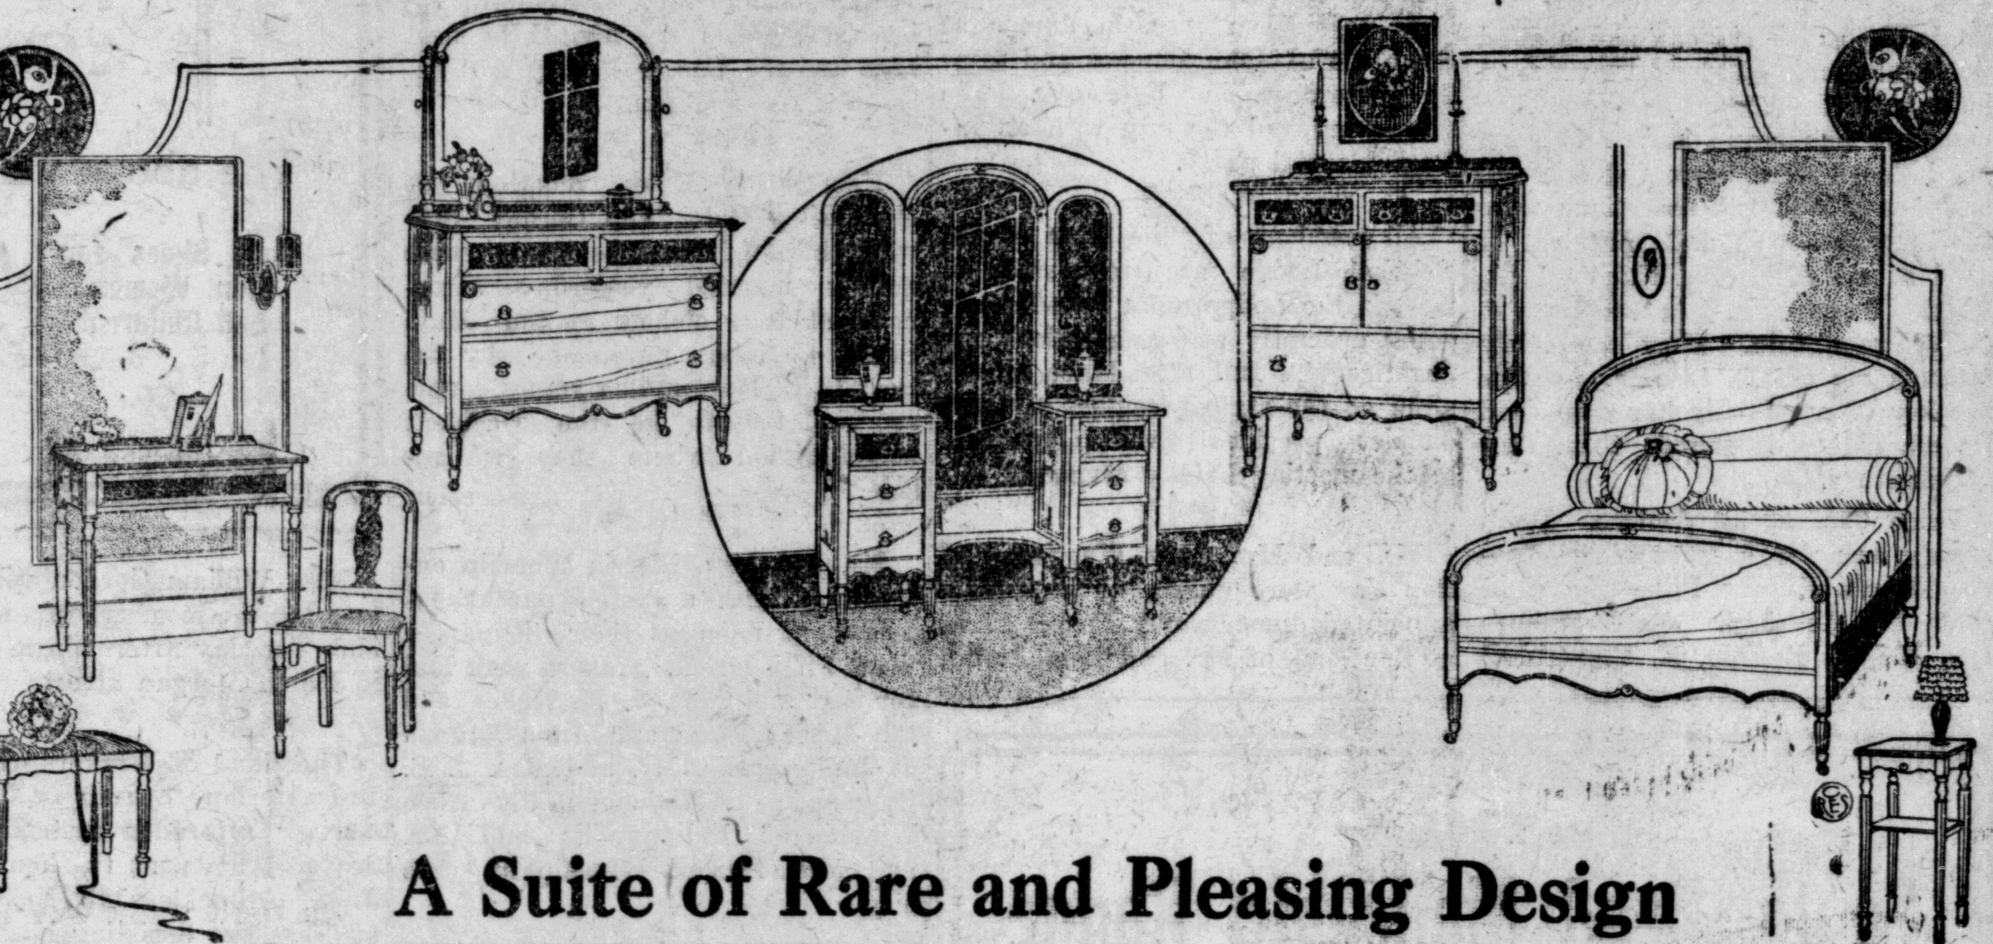

We are very careful and accurate with our measurements. Also after the frame is made it is checked and counter-checked—and that is why we can guarantee a perfect fitting.

A Suite of Rare and Pleasing Design

THERE is an individuality about this suite that is lacking in so much of the furniture manufactured today. It is a Hepplewhite design, conceded among furniture experts to be one of the best interpretations of the chaste delicacy of the famous master designer.

This suite consists of eight pieces: a dresser, vanity dresser, chiffonade, bed, writing desk, chair, bench, and night stand, and a complete suite or individual pieces may be purchased. It is impossible to convey through picture and words the beauty of this suite. To see it is the only proper way of appreciation. It is on display in our show rooms.

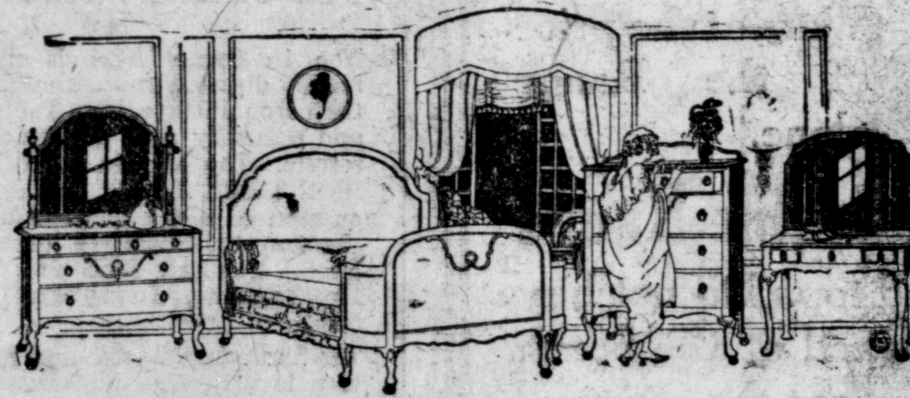

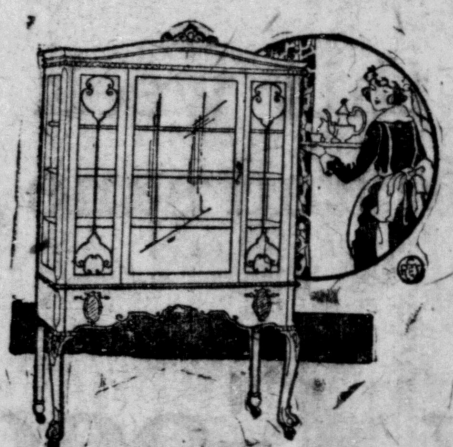

Enjoy Your Home in This Comfortable Chair

One of the best examples of the Chippendale period in an upholstered chair. The design of this chair is massive. The claw feet and straight arms give an air of dignity. Tapestry is finest grade, exposed parts are mahogany finish. Each, \$55.00. Rocker may be had at same price.

A Handsome China Cabinet

A China cabinet that reflects good taste. One of the finest adaptations of the Chippendale period. It will fill its position in your dining room so well that you will wonder how you ever lived without it. Has three shelves, doors are large plate glass. Finished in American walnut. \$46.00

This Suite Should be in Your Bedroom

Here's a beautiful bedroom suite consisting of four pieces that possesses both beauty in appearance and originality in design. The bed has the bow end effect that is so popular in today's furniture designs. The dresser and dressing table are fitted with beautiful plate mirrors; the chiffonade is roomy and spacious enough to hold even the extraordinary wardrobe.

EQUIP HOTEL WITH A HEATING PLANT

Turkey Run State Park is Now An
All Season Recreational and
Community Center

100,000 ATTEND A SEASON

Park Better Than Most Spots in
Indiana Typifies Varied Sea-
sons of Our State

Indianapolis, Ind., Nov. 22.—The hotel at Turkey Run State Park has been equipped with a modern heating plant and the park is now an all season recreational and community center offering comfortable and pleasant abode and entertainment in the fall and winter as well as in spring and summer. This announcement was made by Richard Lieber, director, at the monthly meeting of the conservation commission.

Turkey Run park which was acquired by the State in 1916, Centennial Year, and set aside as a state reserve to keep intact with a remnant of Indiana virgin wilderness, each year demonstrates the feasibility of state parks not alone as recreational centers, but for financial remuneration.

Fifty thousand people paid admission to Turkey Run during the 1920 summer season, and for the reason that many remained from a week to a month, the park daily attendance if kept, would run well over 100,000 for the season. The income from gate receipts and concessions amounted to \$6,377.65, which is about 6 per cent on an \$80,000 investment.

Mr. Lieber points out that this park is as charming and beautiful in winter as summer. When King Winter reigns and the landscape is banketed in white and hoary trees stand like vigilanta sentinels jealously guarding the virgin environ-

For Over Seven Years

Back in the early part of 1913 this business was organized and started in a small frame building. Then came a move into larger quarters on account of increased patronage.

TODAY

We occupy our own plant. It is the third place we have occupied since our organization. Our patronage speaks for itself. Year after year we have expanded and added new equipment, which makes our plant today one of the finest in the state

WE INVITE INSPECTION

Come, see for yourself, the different departments in operation. Work is taken care of in Rushville, and is not trusted to some cleaner in an out of town plant. Because of the trust people have placed in us, is only one reason why our plant has so successfully existed under the same management for over seven years.

This plant is the only plant in Rush County that is entitled to the name of "Master Cleaners."

TUBERCULOSIS SUNDAY SET

Day to be Observed Throughout the
United States

(By United Press)

Indianapolis, Ind., Nov. 22.—Sunday, December 5, has been designated as Tuberculosis Sunday by the Indiana Tuberculosis Association, which is preparing for the annual Christmas Seal Sale to provide funds for the 1921 campaign against the disease. The day will be observed throughout the United States as well. Secretary Murray A. Auerbach has written to all the county seal sale chairmen, asking them to call on the ministers in their respective communities to talk on methods of preventing tuberculosis on Saturday, December 4 and Sunday, December 5.

PLAN NOW IS TO INCREASE TARIFF

Republican Administration Will Likely Seek One Billion Dollar Revenue, Leaders Say

INCREASE OF \$700,000,000

Washington, Nov. 22—A billion dollar tariff is the aim of the republicans when their administration comes into power, republican leaders indicated today.

Senator Curtis of Kansas, Republican whip of the senate, said one billion dollars can be realized from the tariff duty, when increased seven hundred million dollars over the present duties. If that can be done, he said, two billion dollar in-

come from other sources will meet the needs of the government.

The democratic officials asserted that four billion dollars would be required for the next four years. Curtis said that the immediate reduction of army of the government employment by about 200,000 will be made by the republicans and other money saving measures employees. He also declared that the annoying taxes on articles of apparel will be removed and that the increasing rate would be greatly simplified.

INDUSTRIAL COURT SOUGHT IN INDIANA

Is One of the 87 Measures Drafted by Legislative Committee of Next Assembly

WILL CONVEY ON JANUARY 6

Indianapolis, Ind., Nov. 22—Creation of an industrial court like that in Kansas, will be one of the measures to come before the 72 general assembly when it convenes here January 6. A bill providing this matter with 87 other measures has been drafted by the legislative reference bureau C. Kettleborough said today.

Other measures on Kettleborough's desk which will come before the regular session of the legislature provides for the creation of a budget system for the handling of the state's financial affairs; revision of the state fish and game laws; revision of the election laws and taxing laws.

One of the principal measures is the creation of the budget system which the governor-elect has promised. Another important measure is the revision of the state taxing units for school purposes.

Followed Advice Of His Friend

Indigestion, dyspepsia, gas in the stomach, pains in the bowels, heartburn and dizzy spells bothered him. "Dreco has put an end to them and I feel fine again," he says.

"I've had stomach trouble for over two years and it seemed I could not obtain relief, but fortunately I read about Dreco," and now I am one of its strongest boosters," said Mr. Ezra M. Warfield, of 708 N. Bell St., Kokomo, Ind.

"While in the army these ailments annoyed me very much, I'd fill up with gas, which made me very uncomfortable; often had griping pains and felt like I was choking, yet I could not swallow it down nor spit it out. My back often ached and I was nervous and couldn't sleep sound—would get dizzy and have spots before my eyes.

"One of my friends said Dreco would do me good and he was right for I've taken two bottles and my troubles have passed away. The gas does not collect any more, my food seems to do me good, giving me strength; pains in my back, over my kidneys, are all gone. My bowels act regularly and I never have a dizzy spell. Dreco brought relief after other things had failed."

All druggists now sell Dreco and it is being especially introduced in Rushville by F. B. Johnson.—Adv.

Multiplying Motor Miles

THE number of motor miles traveled by the average American has been increasing steadily for a decade. During 1921 this mileage again will be vastly increased.

It is estimated that 10 million automobiles and trucks will be in operation by the end of 1921. The estimate for 1920 is 7,523,000.

The most intensive use of all kinds of automotive machinery is in the 10 Middle Western states served by the Standard Oil Company (Indiana), and the major problem confronting this company is to keep its patrons supplied with all the gasoline and lubricating oils they require.

The Standard Oil Company (Indiana) is acknowledged to be the largest individual producer of gasoline in the world, and its efficient system of distribution makes it possible for the remotest citizen in the 10 states served to get his requirements of petroleum products with a minimum of effort and expense.

Advanced methods of refining, originated in the Standard Oil Company (Indiana) laboratories, have vastly increased the percentage of gasoline recoverable from crude oil.

The Company is striving to increase the yield of gasoline, and every effort is concentrated to the accomplishment of this result without sacrifice of gasoline quality. The efficiency of Red Crown Gasoline is an illustration of what has been accomplished.

The entire petroleum industry is working to multiply the motor miles which shall be available during 1921, and the Standard Oil Company (Indiana) is leading in this effort.

Prospectors are seeking to discover new fields to drill. Producers are insisting on maximum output from wells already drilled.

Waste of oil in transportation is practically eliminated, and the Standard Oil Company (Indiana) efficiency in refining has vastly increased the average recovery of motor fuel from the crude available.

The Standard Oil Company (Indiana) is co-operating in every way with automobile industry and the American motorist to multiply motor miles in 1921.

IS NOT YET TIME FOR WORLD DISARMAMENT

Belgian Delegate Declares That Economic Situation Should be Considered First

FORCES SHOULD BE KEPT

(By United Press)
Geneva, Switzerland, Nov. 22— "The hour for universal disarmament has not yet arrived," M. Lafontaine, Belgian delegate, declared in an address before the assembly of the league of nations.

Lafontaine maintained the economic situation was the most important confronting the world and insisted upon the right as a league to retain all the strength of the national armies which are at their disposal; then it will be at the mercy of none.

As the situation now stands, Lafontaine said, the league is composed of 42 states with armies numbering millions and when put into effect under the service of an international general staff, and the immediate employment of the national force in behalf of Armenia, it would therefore demonstrate to the world the effectiveness of the league.

Disarmament should not be pushed now but the armies and navies should be put at the disposition of the league to form the basis of an international force.

Lafontaine's remarks were greeted with applause.

R. Rowel of Canada criticised the league council's waste of time with secondary problems. He demanded an immediate settlement of the conflict between Poland and Lithuania.

HIGH PRICES ARE BLAMED

Unemployment Conditions Due to That, Government Expert Says

Washington, Nov. 22—Unemployment throughout the country is due to keeping prices up, E. Stewart, government price expert, charged today. Even the firms could operate at full time when the prices were down, he stated.

The depression will be righted as soon as the firms give up the idea of profiteering as in war times. When that happens it will bring an end to the buyers and consumers strike, he said.

FOR ITCHING TORTURE

Use Antiseptic Liquid Zemo

There is one remedy that seldom fails to stop itching torture and relieve skin irritation and that makes the skin soft, clear and healthy.

Any druggist can supply you with Zemo, which generally overcomes skin diseases. Eczema, itch, pimples, rashes, blackheads, in most cases give way to Zemo. Frequently, minor blemishes disappear overnight. Itching usually stops instantly. Zemo is a safe, antiseptic liquid, clean, easy to use and dependable. It costs only 35c; an extra large bottle, \$1.00. It will not stain, is not greasy or sticky and is positively safe for tender, sensitive skins.

Viola Dana at The Princess

As Marcia Meadows, the heroine of "The Chorus Girl's Romance" and the possessor of two of the most irresistible shoulders ever seen on or off the screen, Viola Dana proved to have found a most charming characterization of her career. The picture will be shown today and Tuesday at the Princess Theatre.

The story, adapted from the fiction of F. Scott Fitzgerald and published originally as "Head and Shoulders" in The Saturday Evening Post, has to do with an odd romance between a chorus girl, whose show is trying out in New Haven, and Horace Tarbox, prodigy in scholarship. It seems that some of Horace's more worldly friends persuaded Marcia to go to his college rooms and see what would happen. What did happen is not what either Marcia or Horace or Horace's friends or even the audience imagined. The consequent events form one of the freshest and sprightliest and most human stories seen on the screen of the picture theatre in many a day.

A Novel Picture at The Mystic

Distinct novelty characterizes, "The Beloved Cheater," which is being shown at the Mystic theater today and tomorrow. All of the time-honored customs of the stage and screen are shattered, for here, instead of the dark lady with the sinuous form proving an unconquerable attraction to all the male members of the cast, we have a man who is unable to prevent palpitation of the various feminine hearts.

Not only do we have this unusual character, but there is almost unusual situation. We have reformers in our midst at all times—some of them have proclaimed to the world at large that they were opposed even to kissing. We have pictured the members of this cult as having long hair, or short, according to the sex, and being generally undesirable as objects of osculation.

But in "The Beloved Cheater" there is a most beautiful maid with very kissable lips who has been converted to these radical ideas. And she becomes engaged. And the man foolishly promises never to kiss her. But he is afraid to take any advice and act like a caveman. Instead he begs his friend to teach his fiancée how to kiss.

How the girl is converted and falls in love and out again—how the game of hearts is tangled and snarled and how the Beloved Cheater finally decides that he would rather have all the comforts of home without any of the responsibilities provides a most enjoyable vehicle for Lew Cody's original personality.

Cause for National Pride. In Norway there are practically no illiterates.

Will Rheumatism Again Bind You Hand and Foot?

If you had Rheumatism last year and treated only the pains of the disease by rubbing with liniments and lotions, you can be sure that soon again you will be in the shackles of this relentless foe. You may get some slight temporary relief from the pains of the disease by the use of these local remedies, but Rheumatism is too real and relentless a disease to be rubbed away. So many cases of Rheumatism come from a tiny germ in the blood, that you should try a remedy that has proven so thoroughly satisfactory in these cases. S.S.S., the fine old blood remedy cleanses the blood of all impurities, and removes all disease germs that may creep into the blood. NOT TO BE TRIED AGAIN THIS TERM

Fred Dunn Will Have to Wait Until
February Term For Another
Hearing in Murder Case

ANNOUNCEMENT BY THE COURT

Jury Disagrees Saturday Night, 8
Standing For Life Imprisonment
and 4 Believing Him Insane

Fred Dunn, who was on trial all last week, charged with first degree murder, in connection with the slaying of his wife, Cordelia Dunn on September 18, will be compelled to go on trial again, as the jury was unable to reach an agreement concerning what was to be done with the defendant.

Because the defense based their case on insanity and attempted to prove that Dunn was of unsound mind, and not responsible for his actions, the jury was undecided as to sending him for life imprisonment or for confining him in the insane hospital in connection with the prison.

It was understood that when the jury came in at 10 o'clock Saturday night, they stood eight for life imprisonment and four for his insanity.

At three o'clock Saturday afternoon it was indicated that the jury would disagree, and word was then sent to Judge Sparks to that effect. It was then stated that the jury was 7 to 5, but it was not known then which side was in the majority.

The jury was then told that they had plenty of time to deliberate, but at ten o'clock they were called into the court room and discharged by Judge Sparks.

Judge Sparks stated this morning that Dunn would not be tried again in this term of court. While it is not illegal to try the same case twice in the same term of court, yet in this instance the case will not be tried until the February term.

Sheriff Jones stated that Dunn only spoke once about the decision of the jury. When placed in jail following the disagreement, he asked the sheriff what it meant. The sheriff told him and Dunn's reply was that it would mean that his family would come here again to see him, when the next trial came up.

Dunn, according to Sheriff Jones, did not speak all day Sunday or today about the case, and still presents that expressionless look on his face. One of the jurymen re-

ELLIS MURDER TRIAL OPENS

Case of Knightstown Man Begins in
Henry Circuit Court

The trial of Frank Ellis of Knightstown, charged with manslaughter for the killing of William Hart, opened in the Henry circuit court at Newcastle today with Judge Fred Gause on the bench.

It was expected some time would be required to get a jury. Ellis gave himself up to the sheriff after Hart had died from a blow over the head, early last fall. Ellis was indicted by the grand jury and has been at liberty on \$2,000 bond. John A. Tittsworth of this city is defending Ellis.

ALLEGED TRAFFIC IN LIQUOR TO BE PROBED

Charley Clevenger and Ross Jones,
Accused of Larceny, in Court To-
day But No Sentence Passed

COURT TALKS TO DETECTIVE

Charley Clevenger and Ross Jones who pleaded guilty a few weeks ago to larceny charges in the circuit court, were arraigned this morning before Judge Sparks, presumably to have sentence passed, but instead the court expressed his desire to investigate further the alleged liquor traffic, which one of the three boys arrested had divulged in a statement to a detective of the Railways Express company.

It will be recalled that Clevenger, Jones and Lawrence Manuel, were arrested after the detectives had found that express shipments had been entered. The trio were formerly employees of the company. With the exception of Jones, the other two have been at liberty on bond since pleading guilty.

This morning Judge Sparks made it plain to the detective of the express company that it was none of their business, when the trio would be sentenced, and that the liquor violations had to be investigated by the court. He intimated that the express company was liable for shipments of liquor that were said to have been received here.

BIG FOUR TRACKS ARE BEING CHANGED

Will Connect With L. E. & W. at
Tenth Street and Curve Will
be Eliminated

FORCE OF MEN WORKS SUNDAY

The Big Four railroad has started work on the changing of their tracks just as they enter Rushville, and a large force of men was busy all day yesterday in regrading the tracks for a distance of a half mile, just as the track turns in Rushville at the Park furniture factory.

Steam shovels were used to make a new grade and the tracks will be changed in order to eliminate the curve at the entrance into Rushville. The curve would be on the Eleventh street crossing, which will be paved in the near future, and the railroad decided to take out the curve, and come into Rushville diagonally.

The tracks will be pushed a few feet westward, which will take out the curve, and at Tenth street will run into the L. E. & W. tracks. At present time the tracks curve at Eleventh street and run south to Fifth street, where they join the L. E. & W. railroad. The big change will be in connecting with the L. E. & W. railroad at Tenth street. The old tracks of the Big Four will be partially taken up but will be used for switching purposes and for reaching the several factories that are now served in that portion of the city.

MORE BODIES OF DEAD ARE FOUND

Impossible to Tell Number Killed in
Dublin During Sinn Fein and
British Rioting

ROUND-UP OF LEADERS TODAY

House of Commons Suspends Ses-
sion After Uproar During Dis-
cussion of Dublin Murder

(By United Press)
Dublin, Ireland, Nov. 22.—Bodies of several additional victims of the fighting between Sinn Feiners and British forces were found in the streets of Dublin today.

The confusion throughout the city was so great it was impossible to tell how or when they had been killed. The biggest round-up of Sinn Feiners in the history of the rebellion was in full swing.

Scores of leaders here and in Queenstown were arrested. Detachments of troops were circling buildings in Dublin and Queenstown. The Lord Mayor of Dublin appealed for police protection. A squadron of black and tan police were sent to guard him.

Panic reigned in Dublin. Railway service was suspended and the railroad yards were quiet. In many parts of Dublin where noise occurred, no sound was to be heard today except that made by the army patrols.

In many parts of the city pedestrians were held up and searched. In many cases after such searching the pedestrians would be surrounded by soldiers and hurried away.

London, Nov. 22.—The house of commons suspended its session today a result of situation growing out of the discussion of the Dublin murders.

J. Duzlin, Irish leader, held the center of the floor when he was forced to take his seat. All members of the house joined in the scuffle.

The premier had been asked by another member of the house if he was willing to shoot every member of the Sinn Fein gang who should be caught.

Lloyd George replied he would not hesitate to suggest additional power if he thought it necessary. During the discussion Duzlin made an attempt to get to his feet but was forced to remain quiet. He finally took the floor and asked the premier why he had not mentioned the massacre on the football field.

Sir H. Greenwood, chief secretary for Ireland, answered for the premier, stating that no question had been asked regarding the Croke park affair. Duzlin again took the floor. During the scuffle which followed the sitting was suspended.

REVIVAL AT FAIRVIEW

The Rev. F. T. Taylor, pastor of the Fairview M. E. church, will conduct a series of meetings at the church beginning tomorrow evening. Services will begin promptly each evening at seven o'clock.

WEATHER FOR THE WEEK

Washington, Nov. 22.—Generally fair weather is indicated for the Ohio valley with normal temperatures until Wednesday or Thursday, when there will likely be rains, followed by fair and considerably colder.

BRIDGE PAINTER KILLED.

Anderson, Nov. 22.—Harry Maywood, 30, bridge painter, was almost instantly killed when he was knocked from a 25 foot bridge near Atlanta by a traction car. A widow and three children survive.

GIRL BREAKS HER ARM

Miss Florence Vance, age 18, an employee of the Daily Republican, fell while climbing out of an automobile Sunday evening in front of her home in West Fifth street, and sustained a broken arm. The bone above the elbow in the left arm was broken.

REPORTS ARE NOT VERY ENCOURAGING

Few Townships Have Never Been
Touched in The Fourth Annual
Red Cross Roll Call

WORKERS NOT RESPONSIVE

Believed Rush County Should Make
Good Showing When She Had
Banner Per Capita Membership

Not very encouraging reports were being received today at county headquarters here regarding the fourth annual roll call. Rushville churches at which envelopes were distributed a week ago Sunday, were expected to report this morning, but only one had sent any word to headquarters. One Rushville church, however, reported forty-five enrollments last Monday, not waiting until the second Sunday to take up the envelopes which were distributed.

A few townships in the county have never been touched by the campaign. The county managers have found it impossible to find any responsive person who will take up the work and endeavor to enroll the old members.

In the third annual Roll Call last year, Rush county boasted a membership of 3,300 and the year before the enrollment totaled 9,000. In the fall of 1918 Rush county had the largest per capita membership in the Red Cross of any county in Indiana. Red Cross workers feel that it would be little short of disgraceful for Rush county not to make a good showing this year in the light of its record.

The Red Cross of America, recognized as it is by the United States congress as the agency for its work of ministering to suffering humanity in both war and peace days, brings to the people of Rushville and of Rush county a strong and urgent appeal for support in its great task of reconstruction days. This appeal has not yet been answered with any degree of the readiness that is always characteristic of Rush county people when a call is made upon them to give their support to a good cause.

The appeal of the Red Cross now is not for large sums of money, but for men, women and children who will become members of the organization. The year's membership costs but a dollar, yet it is surprising and a fact not to be boasted of, that after the first week of the fourth Red Cross roll call that the county's goal is not in sight. Other counties of the state have furnished their quotas in drive lasting but two or three days, while present prospects in Rush county point to the failure of the drive.

Rushville people and the good folks of the county will not fail, however, in giving their response to the fourth annual roll call, if Red Cross workers and those who are boosting the membership campaign are right in their belief and confidence in Rush county people. Those who have already joined the Red Cross are asked to display their window cards and to wear their buttons in order that it may be known who have already responded to the call of the organization.

Those who have the interest and work of the Red Cross at heart point out that Rush county cannot fail to support such an organization as the Red Cross. The Red Cross is needed in the county and if the people of the county fail to respond in the drive, it would then be necessary to ask for funds if the work is to continue here. The membership way is the best and before the end of the roll call next Thursday a wonderful effort will be put forward to bring up Rush county's share of Red Cross members.

FINDS CLOTH BURNING

The fire department answered a call this morning about 11:30 o'clock to 910 North Perkins street. The department failed to find any fire except a burning piece of cloth, which was at 906 North Perkins street, a double house, owned by Mrs. Grubbs. The message was telephoned to the department.

MARRIAGE LICENSE SLUMP

Only Four Issued so Far During
Month of November

There has been an unusual slump in the marriage license business this month. The slump is so much more noticeable because November in past years has kept pace with June, and last year during the month there were 23 licenses issued, while so far this month only four couples have taken out licenses. Three of these were issued on the sixth, and then two weeks lapsed until Saturday when the fourth license of the month was issued.

Thanksgiving will more than likely boast two or three, as the records always show more licenses on holidays and Saturday than any other time.

CONCERT IS CHANGED DUE TO CONFLICT HERE

June Elliott Company Will Not
Come Until December 6—Sched-
uled For Friday Night

JAP LECTURE POSTPONED

The June Elliott Concert company, which was scheduled to appear here Friday night as the second number of the American Legion winter lyceum course, has been postponed until December 6 on account of a conflict with a basketball game. Connersville high school plays Rushville here on that date and it was believed a basketball game in the gymnasium and a concert on the next floor above would not be very harmonious. Furthermore, many persons would like to attend both the game and the concert. When the conflict was discovered, a wire was sent to the Lyceum bureau at once at Chicago and the new date was granted.

Word has also been received by the committee of Rush post of the Legion, which is managing the winter course, that Dr. Minakuchi, Japanese lecturer who was billed for Rushville December 8, will be unable to come at that time. The committee was very willing to allow postponement of the lecture until January or February because the change in the June Elliott date would have thrown two numbers within one night of each other.

BIG CROWD EXPECTED AT HIGH SCHOOL NIGHT

Advanced Seat Sale for "Stunts"
to be Given Tuesday Evening In-
dicates Good Attendance

COMPOSED OF THREE PARTS

The advanced seat sale for High School Stunts, which will be given for the benefit of the Rushville high school boosters club Tuesday evening at eight o'clock at the Graham Annex auditorium, indicates that the attendance will be large because most of the tickets have already been sold.

The first scene is laid in the office of Vinegar's vaudeville agency, which is conducted by Valentine and Viola Vinegar, with the able assistance of a janitor and elevator man. The action in the scene deals with the visits of the various organizations which are trying to "get on" the vaudeville stage. Naturally they all have to demonstrate their acts for the agency.

The second part is titled "The Fairy and The Witch" and the scene is laid in fairyland. The third part will be by the high school band. The boosters club is starting a fund to buy instruments for the band.

NOTICE TO RED MEN

The annual Thanksgiving rabbit supper of Tanpah Tribe No. 102 will be held in the Wigwam on Tuesday night following the regular meeting of the Tribe. All members and visiting Red Men are invited to attend.

DR. EARLY GAINS FAME IN THE WEST

Former Rushville Man And Partner
in Industrial Surgery, Purchase
Los Angeles Hospital

DESCRIPTION OF THEIR WORK

Operate a Dozen Emergency Hospi-
tals Near the City—Dr. Early
Bought Equipment While East

Dr. J. Rollin French and Dr. E. C. Early, the latter being a former Rushville man, have lately purchased the Crocker street hospital in Los Angeles, Calif., where they are engaged as industrial surgeons, at a cost of \$10,000, according to word received here, and will expend \$20,000 in remodeling it.

When Dr. and Mrs. Early were here for a visit with relatives a few weeks ago, they were on their way east where Dr. Early went to purchase modern equipment for the new hospital, the name of which will be changed to the American hospital.

The two surgeons maintain an industrial accident surgical service, representing about 1500 corporations, or approximately 60 percent of the industrial concerns of Los Angeles and vicinity, according to an article in a Los Angeles newspaper received here, giving a long description of the work of the two physicians.

Dr. Early is the son of Mr. and Mrs. Frank Early of this city and Mrs. Early is the daughter of Mrs. Anna B. Cox also of Rushville.

The following from a Los Angeles newspaper, which is only a part of the article as it originally appeared, shows what a large measure of success the former Rushville man has attained:

"In addition to the American hospital and offices in the Consolidated Realty building, they have about a dozen emergency hospitals in this district. Completely equipped emergency hospitals have been established at Wilmington, San Pedro, Ermon, Hollywood, Benton and Orcutt. The physicians also have affiliations with doctors in neighboring towns and many ambulance companies.

Los Angeles leads all cities in treatment of industrially injured persons, according to Dr. French.

"While Los Angeles is now the tenth city in the United States in the development of its industries, it is safe to say it is first in caring for injured employees" Dr. French stated.

Approximately one-third of the Los Angeles population it is estimated, is engaged in occupations of various sorts. About 500 of these find it necessary each day to obtain treatment for injuries arising out of

STOPS EVIDENCE IN MILLER DIVORCE CASE

Judge Gause of Newcastle Said he
Heard Enough and Offered to
Grant Defendant Decree

MUST FILE CROSS COMPLAINT

A divorce case was heard Saturday in the Henry circuit court at Newcastle, involving Rush county people, when the case of Virgil Miller against Edna Miller was heard before Judge Gause. The case was very sensational, and when the defense had introduced only a portion of their evidence, the testimony was stopped by the court, as he said he had heard enough.

No decree was issued, but Judge Gause stated that if the defendant would file a cross complaint, she would be granted a divorce. The attorneys did not file a cross complaint. Mrs. Miller was formerly Edna Hardin, daughter of J. B. Hardin, of near Arlington. The plaintiff was represented by Donald Smith and J. D. Megee of this city, and the defense by T. M. Green and John A. Tittsworth, all of this city.

Forecasting the Weather.
A homely method of forecasting the weather is to drop carefully a lump of sugar into a cup of coffee. If the bubbles it causes suddenly rush from the center to the side of the cup, it is going to rain very hard. If the air bubbles assemble in the center and then pass to the side of the cup in a deliberate way, you must still be prepared for what the weather forecast would call "some showers." But if the bubbles refuse to stir from the center of the cup, you may go forth to your labors assured of a fine day.

System Counts.

The difference between a confused household, where things are never entirely in order, and one where the work moves along systematically and tasks seem easily done, is the difference between planning and not planning. It is not the easiest thing in the world to make a schedule for housework—and stick to it! But when one sees the results which are possible through setting aside a definite time for definite things, one sees that it is surely worth trying.

HOG PRICES STRIKE LOW MARK SINCE 1913

Heavy Declines Continue Today, the Average Sales Dropping to \$10.50 in Chicago.

GRAIN IS ALSO AFFECTED

Chicago, Ill., Nov. 22—Grain and hog prices made new low records today in the continuation of the decline on markets throughout the country.

In all grain markets a new low was made since the outbreak of the war, according to records from the middle west.

Hog prices also dropped to the lowest mark since 1913. On the Chicago market hogs dropped 50 cents with the average sales at \$10.5. At other hog markets similar declines were recorded.

The cause of the lower prices were given as "overstocked markets and the tight money conditions."

Corn lost from 1 to 2 cents, the December corn falling to 64 cents.

marked this morning that immediately after it was announced that they had disagreed, Dunn changed his expression, in his opinion, and looked brighter.

Two things have been brought out since the jury disagreed. One is that the defendant may apply for a change of venue from the county, and the other that the defendant's attorneys might petition the court for an insanity commission, and if found insane, commit him at once to a hospital, rather than let the man lie in jail for several months longer, while awaiting a new trial.

Murders are very expensive to push county. The case that took five days last week will probably cost the county in the neighborhood of \$300, and in case of another trial will even prove more, as a jury will be harder to secure than it was this time.

and in the course of their employment.

"To meet the needs of this immense number of patients, we maintain a complete hospital service exclusively for industrially injured," the surgeon remarked.

"Every detail has been given thoughtful consideration, not only for the comfort of the patient, but with the idea of complete rehabilitation, thus enabling the injured to gain compete with his fellow workmen in earning an honest living for himself and family, instead of asking alms on the public street or expecting charity as has been the case in many instances heretofore. day, thus being prepared to render aid to the injured employe whenever such aid is necessary. At the headquarters medical men are in constant attendance and others are within call.

The Los Angeles physicians recently made a three-months trip through 41 of the states to survey the progress made along this line. Nowhere, he reports, did he find a service approaching that being rendered industry in Los Angeles. Intense interest in the work was displayed by officials of eastern states, and the superintendent of vocational training of Massachusetts recommended to high state officials that a similar service be opened there.

The superintendent stated in his letter of recommendation to high state officials that a similar service be opened there.

The superintendent stated in his letter of recommendation that the service offered here was complete and ideal.

As evidence of the far-reaching recognition of the work of local industrial surgical men, it was stated that a request was received by Dr. French that exhibits—photographs and specimens of articles made by

men and women patients of the occupational therapy department—be sent to Philadelphia for the national convention in October.

The institution is organized upon the basis of ultra-modern business methods and the restoration of injured persons is carefully and skillfully planned," explained Dr. French. As a consequence results are attained as surely as the output of any producing, manufacturing or business concern.

This may appeal as a peculiar comparison, but thousands of industry's casualties who have been treated have provided an experience which has reduced their restoration to a scientific reality. The old theory of anticipated results has been replaced by actual accomplishment, as tabulated statistics will reveal.

"The California compensation law is responsible for the stimulation of evolving the better service. Endeav-

ors of physicians interested in caring for industrially injured were quickened when the measure went into effect in 1913. Since that time I and Dr. Early have devoted our time exclusively to this phase of medical work.

"Departmentization of service has added much to its efficiency, each department being held directly responsible for the results. Hence the department heads are called upon to maintain the most complete and latest scientific equipment.

"Departments found necessary run as high as 18. They are: Ambulance, first aid, 24-hour service; reporting, first, subsequent and final; subsequent dressings; eye, ear, nose and throat; x-ray and diagnosis; operative surgery; out-patient; massage, hydro, electro and mechanical therapeutics; compensation detail; occupational therapy; social service and re-education; base

hospital, investigations; employment examinations; commission representation; special examinations, neurological, and stock and equipment.

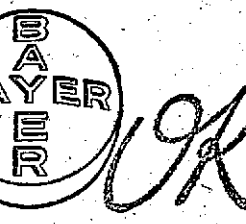

In the past Drs. French and Early have maintained several wards in various private hospitals here for the care of injured employes. It is expected that they will concentrate their efforts in the future at the American hospital. The Crocker street hospital has 100 beds.

"Service will be the watchword of the institution," said Dr. French. "Los Angeles has the best industrial accident surgical service in the world and we are going to improve our lead by the establishment of this great base or center.

"It will be run for the express purpose of giving service, financial returns being a secondary consideration. It is to be 100 percent American, 100 percent hospital and 100 percent efficiency."

Where The Birds Migrate

A few nights ago a flock of wild geese flew over Rushville. If the unsophisticated should ask where they were going, the casual reply would be "South". Just south, that's all, in spite of the fact that there are a half score of states where they might find refuge.

It was not long ago that the migratory birds did just "go south". But now it is different because E. A. McHenry had a big idea. He lives

at Vermillion Parish, Louisiana. A few years ago this "notion" crept into his head. He wondered why wild life of the air, which seeks the warmer climes every fall, should not have a safe refuge. That was the beginning of what is now regarded as the most extensive effort in the direction of game preservation ever attempted. It was culminated a few days ago with the signing of deeds and other documents in Louisiana's capital at Baton Rouge.

Louisiana now possesses 500 square miles, with a frontage of 75 miles on the Gulf, and has contracted forever to maintain this great area as a safeguard refuge for all the wild creatures of the woods, the marshes and the air. The special design is to protect the birds, particularly the migratory species and those with commercially valuable plumage. A large part of the land included in the reservation is unfit for agricultural purposes, but the deeds provide that in case of the discovery of oil or minerals such treasure may be harvested, but with the least possible disturbance of the wild life, and that all revenue thus derived by the State will be devoted to further game conservation or to public education.

The originator of this great movement set aside 60,000 acres of his own marsh land as a bird asylum. The project was then taken up enthusiastically by M. L. Alexander, head commissioner of the State department of conservation, who campaigned for the preservation of the birds and beasts of the Gulf coast. Outside attention was attracted and both the Russell Sage and the Rockefeller Foundations became interested, the former contributing an island of 78,000 acres and the latter a tract of 85,000 acres on the mainland. Thus the project grew until it was possible to set apart forever the huge domain of 500 square miles. The friends of conservation in other states should find inspiration in Louisiana's example.

Foreign diplomats accredited to this country are warmly welcomed and soon find themselves possessed of herds of friends. It has been officially ruled that booze shipped

to them from abroad is not subject to seizure.

Just why they call them "soap box orators" we don't know. Most of them seldom use it.

The disappointed candidate who failed to get under the wire should not worry. He has escaped a pile of future abuse.

Andrew Carnegie tried desperately hard to give away his great wealth and die a poor man, and he almost succeeded. His estate has been recently appraised and is valued at the insignificant sum of \$23,000,000.

A squib writer, probably speaking from experience, remarks that some people marry for love and remain married for spite. And some, we might add, hitch up for money and unhitch as soon as they get it.

EIGHT YEARS OF TROUBLE ENDED

Terre Haute Woman Says Tanlac Has Made All The Difference in The World in The Way She Feels

"I am now enjoying good health for the first time in eight years and I owe my recovery entirely to Tanlac," said Mrs. Maria Zoellin, of 471 N. Second St., Terre Haute, Ind. "During all those eight years I had trouble with my stomach and kidneys and was in a rundown condition generally. My appetite was almost completely gone and I could hardly eat a thing but what gave me trouble."

"I never knew what it was to enjoy a good hearty meal, and vegetables especially I dared not touch. I was subject to terrible coughing spells that often kept me awake nearly all night, and I felt so weak and tired out all the time it was hard for me to get through my housework."

"But Tanlac has made all the difference in the world in my feelings. I never had such an appetite in my life as I have now, everything seems to agree with me perfectly, for I never suffer after eating and have gained several pounds in weight. The other day I ate some green beans, something I hadn't dared do for six years, and never felt a particle of trouble from it."

"I never have a cough now, sleep fine at night and am feeling so much stronger and better; that my housework is like play, in fact I couldn't ask to feel any better than I do. I have told all my neighbors and friends about the way Tanlac has relieved my troubles, and I am only too happy to make this statement."

Tanlac is sold in Rushville by F. B. Johnson Co., in Milroy by Dallas Copper, in Manilla by Geo. J. Inlow, in Arlington by Mrs. L. T. Davis, in Carthage by Otto C. McGarty, and in New Salem by Mrs. Jos. Hankins, R. R. 2—Adv.

QUARREL OVER GAME LEADS TO A MURDER

Ralph G. Smethers, 21. Goes on Trial at Anderson For Fatally Stabbing Fred Jackson

SAYS JACKSON TAUNTED HIM

(By United Press)
Anderson, Nov. 22.—Ralph G. Smethers, 21, was to go on trial here today on a grand jury indictment charging manslaughter.

Smethers is charged with fatally stabbing Fred Jackson, 20, on the night of Oct. 23 following a quarrel over a basketball game. Smethers at the time of the stabbing declared that Jackson had taunted him and struck him and that they were down in the street struggling when he drew his knife and jabbed Jackson twice in one thigh. An artery was severed and Jackson died an hour later.

The youth's father W. E. Smethers, formerly a township trustee, provided \$5,000 bonds for his son after the latter had been indicted by the Madison county grand jury. The indictment was in two counts, one charging voluntary manslaughter and the other charging involuntary manslaughter.

Jackson had been married twice. His second wife was the daughter of Mr. and Mrs. John Henry of Pendleton. Jackson left an estate valued at \$5,000.

BETTER THAN CALOMEL

Thousands Have Discovered Dr. Edwards' Olive Tablets Are a Harmless Substitute

Dr. Edwards' Olive Tablets are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. For 17 years he used these tablets (a vegetable compound mixed with olive oil) in his private practice with great success.

They do all the good that calomel does but have no bad after effects. No pains, no griping, no injury to the gums or danger from acid foods yet they stimulate the liver and bowels. Take Dr. Edwards' Olive Tablets when you feel "lousy" and "heavy." Note how they clear clouded brain and perk up the spirits.

MOTHERS, DO THIS—

When the Children Cough, Rub Musterole on Throats and Chests

No telling how soon the symptoms may develop into cough or worse. And then's when you're glad you have a jar of Musterole at hand to give prompt, sure relief. It does not blister. As first aid and a certain remedy, Musterole is excellent. Thousands of mothers know it. You should keep a jar in the house, ready for instant use. It's the remedy for adults too. Relieves sore throat, bronchitis, tonsillitis, croup, stiff neck, asthma, neuritis, headache, congestion, pleurisy, pneumonia, tracheitis, pain and ache of back or joints, sprains, sore muscles, chilblains, treated feet and soles of the feet (it often prevents pneumonia).

TRY A WANT AD

IN YE OLDEN TIME

Hoop skirts were worn by those who first asked the druggist for, and insisted on having, the genuine Golden Medical Discovery put up by Dr. Pierce over fifty years ago. Dress has changed very much since then! But Dr. Pierce's medicines contain the same dependable ingredients. They are standard today just as they were fifty years ago.

Dr. Pierce's Golden Medical Discovery for the stomach and blood cannot be surpassed by any remedy today.

Dr. Pierce's Favorite Prescription for weak women has never been equalled for the distressing complaints incident to womanhood. What others say:

GOSHEN, IND.—"It is now about fifteen years since I had a wonderful demonstration with Doctor Pierce's Golden Medical Discovery. At that time I was down and out. I had coughed night and day for a whole year, and lost so much flesh I began to look like a walking skeleton. The 'Discovery' made me feel new strength and vitality right from the start, and in a year's time I was just as strong and hardy as ever, and have never suffered with such a cough since."—Mrs. ELIZA TEETER, 415 Middlebury Street.

CARTHAGE AT FAIRVIEW

The Fairview Athletic Club will meet the Carthage Independent team Tuesday night at the Fairview gymnasium. Carthage defeated Fairview a few weeks ago at Carthage, and a big game is expected tomorrow night, when Fairview will attempt to get revenge. Fairview will start with their regular line-up, consisting of Smelser and Seale, forwards; Vail, center; Hinchman and Royalty, guards.

LICENSED TO WED

A marriage license was issued Saturday to Gerald Stewart, a farmer and Mabel Ruby, daughter of Mrs. Riley Ruby of Carthage. Her occupation was given as a school teacher.

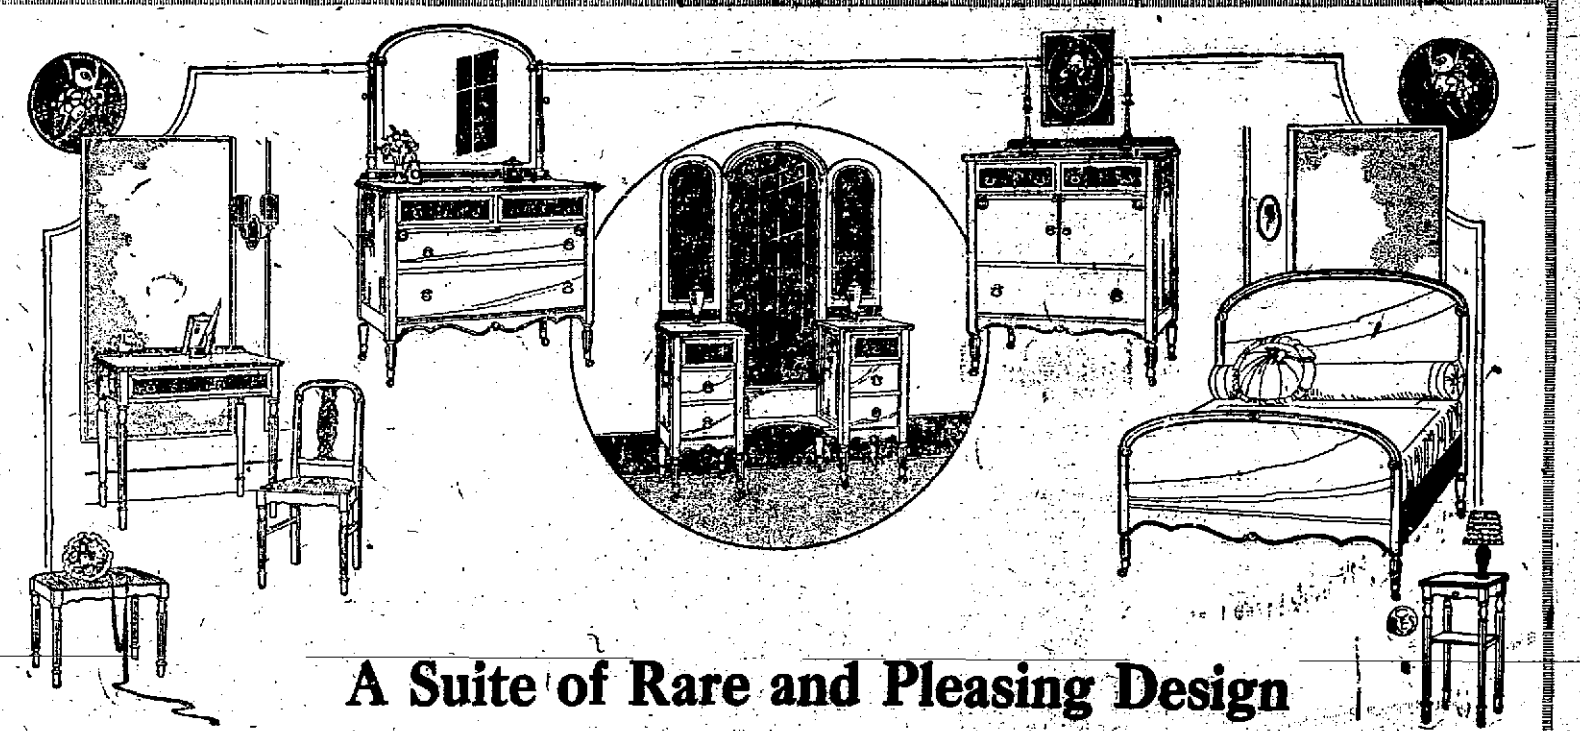

15,000 Miles of Seals

Washington, Nov. 22—Enough tuberculosis Christmas seals have been printed and distributed by the National Association to reach more than half way around the world. Nine hundred million seals have been distributed to forty-eight state tuberculosis associations and more than eleven hundred county associations. If placed in a row, these seals would measure fifteen thousand miles.

A Suite of Rare and Pleasing Design

THERE is an individuality about this suite that is lacking in so much of the furniture manufactured today. It is a Hepplewhite design, conceded among furniture experts to be one of the best interpretations of the chaste delicacy of the famous master designer.

This suite consists of eight pieces: a dresser, vanity dresser, chiffonade, bed, writing desk, chair, bench, and night stand, and a complete suite or individual pieces may be purchased. It is impossible to convey through picture and words the beauty of this suite. To see it is the only proper way of appreciation. It is on display in our show rooms.

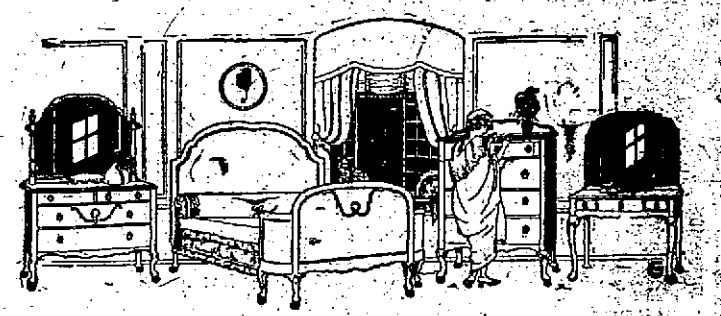

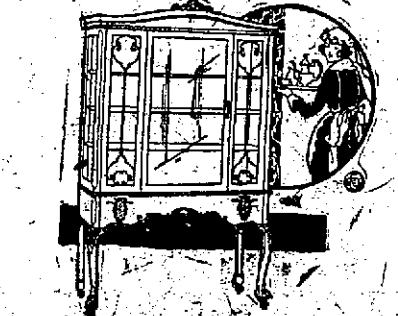

Enjoy Your Home in This Comfortable Chair

One of the best examples of the Chippendale period in an upholstered chair. The design of this chair is massive. The claw feet and straight arms give an air of dignity. Tapestry is finest grade, exposed parts are mahogany finish. Each, \$55.00. Rocker may be had at same price.

A Handsome China Cabinet

A China cabinet that reflects good taste. One of the finest adaptations of the Chippendale period. It will fill its position in your dining room so well that you will wonder how you ever lived without it. Has three shelves, doors are large plate glass. Finished in American walnut. \$46.00

This Suite Should be in Your Bedroom

Here's a beautiful bedroom suite consisting of four pieces that possesses both beauty in appearance and originality in design. The bed has the bow end effect that is so popular in today's furniture designs. The dresser and dressing table are fitted with beautiful plate mirrors; the chiffonade is roomy and spacious enough to hold even the extraordinary wardrobe.

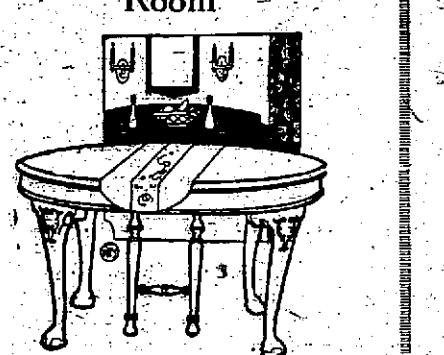

Bed, Dresser and Chiffonade \$148.00

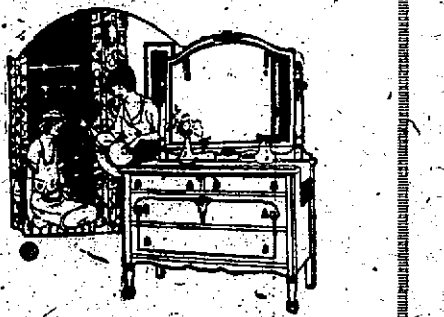

This Cane Suite, Inviting and Attractive

In this Queen Anne Cane Suite we want to call your attention to the unusually simple lines. It represents a new relief from the ordinary cane suite. Can be had in a rich combination of mahogany and tapestry or walnut and tapestry. The seats are unusually deep and the backs broad. The thick cushions and spring seats insure absolute comfort. Suite consists of chair, rocker and davenport as shown. \$225.00

Chippendale Table For Your Dining Room

In offering this table to you, we feel that we are giving you an opportunity to purchase one of the most representative and handsome designs of Chippendale, considered the "Master Furniture Designer of all Time." Constructed of American Walnut, beautifully carved. This is a very unusual value at \$48.00

Charming Dresser A Real Value

A real value is offered in this charming dresser. The drawer space is unusually ample and the large mirror is of clear plate glass. Can be had in a mahogany finish or American walnut. At the price we are making you cannot afford to miss an opportunity like this. \$45.00

Badly Fitted Glasses are Useless

Even though the lenses may be exactly made for your defect of vision, the effect is spoiled if the frames are badly fitted.

A badly fitted bridge causes the lenses to be away from their correct position, with the result that vision is distorted. Also glasses of wrong width between the center of the lenses causes distorted vision.

We are very careful and accurate with our measurements. Also after the frame is made it is checked and counter-checked—and that is why we can guarantee a perfect fitting.

Miss Mable Ruby, daughter of Mrs. Riley Ruby, and Gerald Stewart, both of near Occident, were quietly married yesterday afternoon at four o'clock at the Main Street Christian parsonage by the Rev. L. E. Brown. The young couple are well known in the Occident neighborhood where they will reside.

Mr. and Mrs. Morris Winship entertained with a dinner party yesterday at noon at their home in West Fifth street. Covers were laid for Mr. and Mrs. J. M. Kelley and the Misses Flora and Anna Krauch of Indianapolis, Mr. and Mrs. J. E. Stonecipher of Richmond, Miss Alice Winship of Indianapolis and Mr. and Mrs. Buford Winship of this city.

Grove's Iron Tonic Syrup

Pale Children Need Iron

Iron in Syrup form is more readily digested and assimilated than Iron Pills or Iron Tablets, and naturally you get quicker results. The Iron in GROVE'S IRON TONIC SYRUP is digested as soon as it is swallowed and, therefore, is promptly assimilated. You can soon feel its strengthening, invigorating effect.

The Syrup is flavored and children love to take it. Contains no Nux-vomica or other poisonous drugs, therefore, it can be given to The Babe, The Child, The Mother or The Grandmother with perfect safety. 75c.

Christmas Novelties

Among the best of the novelties introduced for Christmas gifts are the handsome beads made of sealing wax. They are strung on silk cord with or without glass or steel beads. The wax is heated over an alcohol flame, the colors combined and the beads shaped over a knitting needle while the wax is soft. Pretty hatpins are made in the same way.

100,000 ATTEND A SEASON

Park Better Than Most Spots in
Indiana Typifies Varied Sea-
sons of Our State

Indianapolis, Ind., Nov. 22.—The hotel at Turkey Run State Park has been equipped with a modern heating plant and the park is now an all season recreational and community center offering comfortable and pleasant abode and entertainment in the fall and winter as well as in spring and summer. This announcement was made by Richard Lieber, director, at the monthly meeting of the conservation commission.

Turkey Run park which was acquired by the State in 1916, Centennial Year, and set aside as a state reserve to keep intact with a remnant of Indiana virgin wilderness, each year demonstrates the feasibility of state parks not alone as recreational centers, but for financial remuneration.

Fifty thousand people paid admission to Turkey Run during the 1920 summer season, and for the reason that many remained from a week to a month, the park daily attendance if kept, would run well over 100,000 for the season. The income from gate receipts and concessions amounted to \$6,377.65, which is about 6 per cent on an \$80,000 investment.

Mr. Lieber points out that this park is as charming and beautiful in winter as summer. When King Winter reigns and the landscape is blanketed in white and hoary trees stand like vigilantes sentinels jealously guarding the virgin environ-

PLAN NOW IS TO INCREASE TARIFF

Republican Administration Will Likely Seek One Billion Dollar Revenue, Leaders Say

INCREASE OF \$700,000,000

Washington, Nov. 22—A billion dollar tariff is the aim of the republicans when their administration comes into power, republican leaders indicated today.

Senator Curtis of Kansas, Republican whip of the senate, said one billion dollars can be realized from the tariff duty, when increased seven hundred million dollars over the present duties. If that can be done, he said, two billion dollar in-

come from other sources will meet the needs of the government. The democratic officials asserted that four billion dollars would be required for the next four years. Curtis said that the immediate reduction of army of the government employment by about 200,000 will be made by the republicans and other money saving measures employed. He also declared that the annoying taxes on articles of apparel will be removed and that the increasing rate would be greatly simplified.

INDUSTRIAL COURT SOUGHT IN INDIANA

Is One of the 87 Measures Drafter by Legislative Committee of Next Assembly

WILL CONVEVE ON JANUARY 6

Indianapolis, Ind., Nov. 22—Creation of an industrial court like that in Kansas, will be one of the measures to come before the 72 general assembly when it convenes here January 6. A bill providing this matter with 87 other measures has been drafted by the legislative reference bureau C. Kettleborough said today.

Other measures on Kettleborough's desk which will come before the regular session of the legislature provides for the creation of a budget system for the handling of the state's financial affairs; revision of the state fish and game laws; revision of the election laws and taxing laws.

One of the principal measures is the creation of the budget system which the governor-elect has promised. Another important measure is the revision of the state taxing units for school purposes.

CARD OF THANKS

We wish to extend our sincere thanks to our neighbors and friends for the kindness and sympathy shown to us during the illness and death of our beloved son William, and for the beautiful floral tribute, also the singers and the minister who so kindly assisted us.

Followed Advice Of His Friend

Indigestion, dyspepsia, gas in the stomach, pains in the bowels, heartburn and dizzy spells bothered him. "Dreco has put an end to them and I feel fine again," he says.

"I've had stomach trouble for over two years and it seemed I could not obtain relief, but fortunately I read about Dreco," and now I am one of its strongest boosters," said Mr. Ezra M. Warfield, of 708 N. Bell St., Kokomo, Ind.

"While in the army these ailments annoyed me very much, I'd fill up with gas, which made me very uncomfortable; often had griping pains and felt like I was choking, yet I could not swallow it down nor spit it out. My back often ached and I was nervous and couldn't sleep sound—would get dizzy and have spots before my eyes.

"One of my friends said Dreco would do me good and he was right for I've taken two bottles and my troubles have passed away. The gas does not collect any more, my food seems to do me good, giving me strength; pains in my back, over my kidneys, are all gone. My bowels act regularly and I never have a dizzy spell. Dreco brought relief after other things had failed."

All druggists now sell Dreco and it is being especially introduced in Rushville by F. B. Johnson.—Adv.

Multiplying Motor Miles

THE number of motor miles traveled by the average American has been increasing steadily for a decade. During 1921 this mileage again will be vastly increased.

It is estimated that 10 million automobiles and trucks will be in operation by the end of 1921. The estimate for 1920 is 7,523,000.

The most intensive use of all kinds of automotive machinery is in the 10 Middle Western states served by the Standard Oil Company (Indiana), and the major problem confronting this company is to keep its patrons supplied with all the gasoline and lubricating oils they require.

The Standard Oil Company (Indiana) is acknowledged to be the largest individual producer of gasoline in the world, and its efficient system of distribution makes it possible for the remotest citizen in the 10 states served to get his requirements of petroleum products with a minimum of effort and expense.

Advanced methods of refining, originated in the Standard Oil Company (Indiana) laboratories, have vastly increased the percentage of gasoline recoverable from crude oil.

The Company is striving to increase the yield of gasoline, and every effort is concentrated to the accomplishment of this result without sacrifice of gasoline quality. The efficiency of Red Crown Gasoline is an illustration of what has been accomplished.

The entire petroleum industry is working to multiply the motor miles which shall be available during 1921, and the Standard Oil Company (Indiana) is leading in this effort.

Prospectors are seeking to discover new fields to drill. Producers are insisting on maximum output from wells already drilled.

Waste of oil in transportation is practically eliminated, and the Standard Oil Company (Indiana) efficiency in refining has vastly increased the average recovery of motor fuel from the crude available.

The Standard Oil Company (Indiana) is co-operating in every way with automobile industry and the American motorist to multiply motor miles in 1921.

IS NOT YET TIME FOR WORLD DISARMAMENT

Belgian Delegate Declares That Economic Situation Should be Considered First

FORCES SHOULD BE KEPT

(By United Press)
Geneva, Switzerland, Nov. 22.—“The hour for universal disarmament has not yet arrived,” M. Lafontaine, Belgian delegate, declared in an address before the assembly of the league of nations.

Lafontaine maintained the economic situation was the most important confronting the world and insisted upon the right as a league to retain all the strength of the national armies which are at their disposal; then it will be at the mercy of none.

As the situation now stands, Lafontaine said, the league is composed of 42 states with armies numbering millions and when put into effect under the service of an international general staff, and the immediate employment of the national force in behalf of Armenia, it would therefore demonstrate to the world the effectiveness of the league.

Disarmament should not be pushed now but the armies and navies should be put at the disposition of the league to form the basis of an international force.

Lafontaine's remarks were greeted with applause.

R. Rowel of Canada criticized the league council's waste of time with secondary problems. He demanded an immediate settlement of the conflict between Poland and Lithuania.

HIGH PRICES ARE BLAMED

Unemployment Conditions Due to That, Government Expert Says

Washington, Nov. 22.—Unemployment throughout the country is due to keeping prices up, E. Stewart, government price expert, charged today. Even the firms could operate at full time when the prices were down, he stated.

The depression will be righted as soon as the firms give up the idea of profiteering, as in war times. When that happens it will bring an end to the buyers and consumers strike, he said.

FOR ITCHING TORTURE

Use Antiseptic Liquid Zemo

There is one remedy that seldom fails to stop itching torture and relieve skin irritation and that makes the skin soft, clear and healthy.

Any druggist can supply you with Zemo, which generally overcomes skin diseases. Eczema, itch, pimples, rashes, blackheads, in most cases give way to Zemo. Frequently, minor blemishes disappear overnight. Itching usually stops instantly. Zemo is a safe, antiseptic liquid, clean, easy to use and dependable. It costs only 35c; an extra large bottle, \$1.00. It will not stain, is not greasy or sticky and is positively safe for tender, sensitive skins.

Buy Beaver Board that is BEAVER BOARD

You want better walls and ceilings, in your new home, in present waste space, or to replace cracked plaster and dingy wallpaper. So you ask for Beaver Board, the original wallboard, that has been building better walls and ceilings for a dozen years.

But do you know that inferior wallboards are often sold as Beaver Board? They may look like Beaver Board, feel like Beaver Board, and even claim to be as good as Beaver Board.

But they can't give Beaver Board results.

Be sure to get what you ask for. The Beaver trademark on the back of every panel of genuine Beaver Board is there for your protection. Look for it.

Viola Dana at The Princess

As Marcia Meadows, the heroine of "The Chorus Girl's Romance" and the possessor of two of the most irresistible shoulders ever seen on or off the screen, Viola Dana proved to have found a most charming characterization of her career. The picture will be shown today and Tuesday at the Princess Theatre.

The story, adapted from the fiction of F. Scott Fitzgerald and published originally as "Head and Shoulders" in The Saturday Evening Post, has to do with an odd romance between a chorus girl, whose show is trying out in New Haven, and Horace Tarbox, prodigy in scholarship. It seems that some of Horace's more worldly friends persuaded Marcia to go to his college rooms and see what would happen. What did happen is not what either Marcia or Horace or Horace's friends or even the audience imagined. The consequent events form one of the freshest and sprightliest and most human stories seen on the screen of the picture theatre in many a day.

A Novel Picture at The Mystic

Distinct novelty characterizes, "The Beloved Cheater," which is being shown at the Mystic theatre today and tomorrow. All of the time-honored customs of the stage and screen are shattered, for here, instead of the dark lady with the sinuous form proving an unconquerable attraction to all the male members of the cast, we have a man who is unable to prevent palpitation of the various feminine hearts.

Not only do we have this unusual character, but there is almost unusual situation. We have reformers in our midst at all times—some of them have proclaimed to the world at large that they were opposed even to kissing. We have pictured the members of this cult as having long hair, or short, according to the sex, and being generally undesirable as objects of osculation.

But in "The Beloved Cheater" there is a most beautiful maid with very kissable lips who has been converted to these radical ideas. And she becomes engaged. And the man foolishly promises never to kiss her.

But he is afraid to take any advice and act like a caveman. Instead he begs his friend to teach his fiancée how to kiss.

How the girl is converted and falls in love and out again—how the game of hearts is tangled and snarled and how the Beloved Cheater finally decides that he would rather have all the comforts of home without any of the responsibilities provides a most enjoyable vehicle for Lew Cody's original personality.

Cause for National Pride. In Norway there are practically no illiterates.

Will Rheumatism Again Bind You Hand and Foot?

If you had Rheumatism last year and treated only the pains of the disease by rubbing with liniments and lotions, you can be sure that soon again you will be in the shackles of this relentless foe. You may get some slight temporary relief from the pains of the disease by the use of these local remedies, but Rheumatism is too real and relentless a disease to be rubbed away. So many cases of Rheumatism come from a tiny germ in the blood, that you should try a remedy that has proven so thoroughly satisfactory in these cases. S.S.S., the fine old blood remedy cleanses the blood of all impurities, and removes all disease germs that may creep into the blood. Begin taking S.S.S. today, and if you will write a complete history of your case, our medical director will give you expert advice, without charge.
